

Key information

About us

Science Creates Outreach is a STEM education charity committed to inspiring the next generation of scientists and entrepreneurs.

Our mission

We are on a mission to demystify scientific careers, diversify the faces of science and empower confident, skilled problem solvers.

Our programme

Our programme includes immersive tours of working deep tech incubators, hands-on workshops and conversations with scientists to give young people a real-world experience of and insight into what it is like to be a pioneering scientist.

The Learning Lab

The Learning Lab is an inclusive, dedicated outreach space surrounded by scientific entrepreneurs. It hosts school visits, community groups, work experience students and courses for young people to connect with the outside world.

Our taglines

Inspiring the next generation

Bringing science to life

Shaping the scientists and innovators of tomorrow

A unique approach to STEM education

Unlocking a brighter future for science

Our charity number

#1199986
